## SKILLS

**Languages:**
- ⬛ HTML
- ⬛ CSS
- ⬛ JAVASCRIPT
- ⬛ TYPESCRIPT

**Frameworks:**
- ⚛ REACTJS
- Ⓝ NEXT.JS

**Libraries:**
- ⟳ TAILWINDCSS
- △ PRISMA
- ✉ FRAMER MOTION

**Tools:**
- ⬛ STORYBOOK

## SUMMARY

**Web Developer** specializing in building and maintaining **web applications** with a focus on **UI/UX**, **responsive design**, and **SEO**. Skilled in **CSS**, **Framer Motion**, **TypeScript**, **React**, and **Next.js** for creating interactive and responsive websites. Experienced with **Prisma** and **Node.js** for backend work, and familiar with managing content through **PayloadCMS**. I enjoy making websites that look great, work well on any device, and are easy to use.

## PROJECTS

### vtchan.net

Full-stack | 2024

A website forum focused on Virtual YouTuber related content.

**Key Features:**
- Secure user authentication
- Post creation and sharing
- Comment interactions (reply, like, report)
- Comments Pagination
- Tools for user management and content moderation

**Frontend:** Next.js    TypeScript    Tailwind CSS
**Backend:** Prisma    Supabase    Next-Auth    Upstash/Redis

### Azuki Homepage Recreation

Frontend | 2024

A faithful recreation of the Azuki.com homepage, capturing its look and feel while using my preferred technologies.

**Key Features:**
- Responsive design matching original site
- Interactive Music Player
- Carousel Slider
- Infinite Slider
- World Pin animation

**Frontend:** Next.js    TypeScript    Tailwind CSS    Framer Motion    Jotai
**Tools:** Storybook
